

Simon Mardel

Background

Remote health care

Basic health care – that means (to me)cost
effective health care

Emergency medicine = time critical care

Cave rescue – but never in anger!

Neglected Processes in Health care and
prevention

Simon Mardel

Background

Remote health care

**Basic health care – that means (to me)cost
effective health care**

Emergency medicine = time critical care

Cave rescue – but never in anger!

**Neglected Processes in Health care and
prevention**

Anatomy
Physiology
Physics

Interaction between different systems compromised – x x x
Known as potentiation not summation

Risk Management

Probability of occurrence

X

Severity of that condition

X

Preventibility or Treatability!

Example – unpreventable poor outcome

Students and lay people have sound intuition

Findings – consistency – or inconsistency even if one of 10 findings ?

Example

Respiratory rate

History

Force

**Ammount type – penetrating/ blunt/
focal**
